This is an adoption catalog for Earthlings to use when deciding which Shm00fi3 baby or babies to adopt.

The images are sonograms of the unborn babies. Using High Tech Ultra Clear Ultrasound Imaging Technology™, specially trained intergalactic obstetricians are able to render images of the babies before they are born.

Shm00fi3zz parents are known to have large litters and though many babies may be seen in the sonograms, we will only know who is born when they actually emerge from the womb. Some babies take additional gestation time depending on their size, glitter formations, and other still mysterious factors.

The babies' names are given by the Shm00fi3zz parents in their native language, Wingdings, and translated into english by a staff member of the IDGAF Corporation.

Babies from this birthing are available only in-person at this event. Sometimes babies are available to adopt on [ebay.com/usr/shm00fi3zz](https://www.ebay.com/usr/shm00fi3zz)

These catalogs are created and distributed by the Inter-Dimensional and Galactic Adoption Foundation Incorporated (IDGAF).
